

SOLUTIONS BY SHOFU

2023 | THIRD QUARTER

— 2023 THIRD QUARTER —

Super-Snap is a tried and true finishing and polishing disk system with a superior design compared to major competitors that feature a metal ring attachment system, which may damage the surface of a

newly placed restoration.

Super-Snap offers an entirely flat polishing surface that will never harm a restoration while also providing more surface area for faster polishing.

Super-Snap sets the industry standard for finishing and polishing anterior composite restorations. Available in two

diameters, go from the coarse grit to the fine grit to achieve a glossy finish. Even better, Super-Snap is 30% less expensive than the major competitor.
